REMARKS.

On the W the barometer has continued rising but little, fallen again at some S stations, the lowest readings being near Hamagu. Winds are SE in the N, N in the S, the weather warmer and rainy in the E, cooler and partly clear in the W. From all central Japan and part of the N rain is reported for past 24 hours; 27 mm from Tobio. Temperature is 18° at Hamanatsu, 12° only at Hiroshima and in W on Kuroshio, 11° in Hokkaido.
